## Later from Europe.

From the New York Herald of the 21st ult.

Arrival of the Steamer Acadia. The advices from London are to the 3d, and from Liverpool to the 4th instant in-

The English Parliament would assemble on the 18th instant, for the despatch of business.

The India mail had arrived. Accounts said to be good.

Money was easier at Stock Exchange, London, at the latest advices; worth say 6

per cent. The number of commercial bills due and payable to the Bank of France, on the 30th ult, was so great that it became necessary to employ additional collecting clerks-a

fact unprecedented in the annals of that es-During the 29th and 30th alt, the Bank of France issued bank notes of the value of 200f. each, to the amount of fifteen millions. It appears, further, that the bank proposes to issue similar notes to the amount of

twenty-five millions. It is reported that the French government will, during the next session, bring in
at Cerro Gordo ere we find him near the
three likely negroes.

JOHN W. LESLY, Adm'r. It is reported that the French govern-Bonaparte family from that country.

ROMAN CATHOLIC HIERARCHY IN EN-GLAND .- All the documents relating to this London. The Right Rev. Dr. Walsh, heretofore vicar apostolic of the midiand ster; Dr. Wiseman, who it was expected would fill that position, is to be Bishop of Birmingham. The title of vicar apostolic held by Dr. Waring. Preparatory to the consideration of his holiness. There are ere long all the arrangements respecting a nuncio from Rome will be effected.

Among the melancholy events of the day, we must note the suicide of Professor McCullagh, of the University of Dublin, which took place early last week. The learned gentleman had brought on temporary insanity by excessive study. His fu-neral took place on the 30th ult. The principal squares of the University were thronged from an early hour with the sorrowing friends and admirers of the deceased, comprising all the men of rank in science or literature in Dublin. It was originally intended that the funeral should be strictly private, but the desire to do public homage to the memory of this great ornament of Alma Mater so far prevailed, that no less than from twelve to lifteen hundred gentlemen escorted the remains en route to their last resting place as far as the confines of the city.

The usual weekly meeting of the Repeal Association took place at Conciliation Hall on the 1st, but it was devoid of any public interest.

THE CHOLERA .- In our paper of Octo ber 5, we announced that the cholera had reached Europe. It has since committed fearful ravages on both sides of the Black Sea, and for some days has raged at Odessa. In Southern Russia the population of whole posed amendment of the constitution of that | Will be offered to the highest bidder, on Sale villages have been nearly swept away. State, by which the Legislature is deprived Cases have been observed at Orel, Toula, of the power to charter Banks. This aand in the village of Pensa, which is situa- | mendment is said to have been carried in ted only about 50 leagues from Moscow, the affirmative by a large majority, so that Due West Corner, containing 153 acres, about and where four peasants had been attacked. no Banks can hereafter be incorporated in that State.

Due west Corner, containing to be compared in that State. 31,300 inhabitants, there have been 5915 cases, and 3131 deaths. The epidemic reigns with great intensity at Tscharno Jarsk and its environs. At Saratow, capital of province of same name, 2500 have been attacked, and 1991 have died. In the foreman. the country of the Don Cossacks there have been 13651 cases, of which 7017 have proved fatal. At Charkow 58 persons have died of the disease; and at Kursk there were, on the 15th of Sept., 588 sick. At Woronish, a city containing upwards of 44,000 inhabitants, the cholera had appeared on the 4th of September, and since there have been 420 cases per day, and 150 deaths. On the 16th there were in the hospital 1019 cholera patients, of whom 418 had been attacked the same day; the number of deaths on that day had been 152. Without counting Georgia, Caucasus, and the country of the Cossacks of the Black Sea, it already reigns in sixteen governments. On the 17th it broke out at Warsaw, and on the 30th at Moscow. Only one case has occurred in Austria, and one in Prussia. Up to the 29th ult. it had not visited Constantinople. The Allgemeine Zeitung, of the 27th October, says: The cholera is advancing from the east to the svest, but as yet has not reached a more westerly point than Certsch, on the sea of Azoff. The winter will impede its progress, but not change the direction it has taken.

THE ROSSE TELESCOPE.—The capacity of this intrument is wonderful. Such is its power, that if a star of the first magnitude were removed to such a distance that its light would be three millions of years in reaching us, this telescope would nevertheless, show it to the human eye. Is it to be wondered, then, that with such an instrument grand discoveries should be made? It has been pointed to the heavens; months. By order of the Court of Ordinary. And, although in the beginning only of its career, it has already accomplished mighty

things. There are nobulous spots in the heavens which have baffled all the instruments hitherto constructed, but this telescope resolves their true character completely. Among the wonderful objects which have been subject to its scrutmy, is the nebula in the constitution Orion. I have had an opportunity to examine it. It is one of the most curious objects in the whole heavers. It is not round, and it throws off furious lights. From the time of Herschel it has been subject to the examination of the most powerful instruments; but it grew more and more mysterious and diverse in its character. When Lord Rosse's great telescope was directed to its examination, it for a long time resisted its power. He found it required patient examination-night after night, month after month. At length a pure atmosphere gave him the resolution of its constitution; and the stars of which it is composed burst upon the sight of man for the first time.

Dec I

GENERAL SITELDS .- This distinguished officer is always to be found in the thickest Scarcely had he recovered from his wound in their precipitate flight from his pursuing brigade. And although seriously wounded in this great battle, he staunched the blood long debated question among the Catholic liowing from his wound by binding his clergy in England have now arrived in handkerchief around it, nor quits the field till the victory is won. General Shields is a native of the Emeral I Isle, and well may district, becomes Archbishop of Westmin- bis Irish friends in America be proud of so brave and chivalrous a brother. General Shields is now about forty years years of age. When he received the appointment of a is to be abolished, and the bishops are to be General in the United States Army he was called after their respective sees-such for at the head of the Land Department, but instance as Bishop of Northampton, now left his most comfortable situation to defend his adopted country in the perilous strife of a further increase of the number of bishops by four more, the division of England into called to preside over the Land Depart a greater number of bishopries is under the ment at Washington he had held the appointment of Eupreme Judge in the State of also to be created one or two more arch. Illinois. Thus beside being a gallant soldbishopries, and it is not improbable that her as ever drew a sword, he ranks among the best read Judges of the Republic.

> THE BATTLE OF EL MOLINO DEL REY .-From the official despatches, now publishing in the journals, this battle, fought on the 8th of Scotember, under the immediate command of Gen Worth, would seem to be one of the most brilliant achievements of the war. With a force consisting cf only three thousand one hundred men, in the short space of two hours, an enemy of fourteen thousand strong, commanded by Santa Anna himself strongly entrenched, were entirely routed, with the loss to them of three thousand in killed and wounded, eight hun dred prisoners, including fifty-two commissioned officers; three of the four of their guns and a large quantity of small arms, and gun and musket ammunition. Five to one, and strong entrenchments, was the proportion of force against Gen Worth's division yet more of the enemy were slain, wounded and made prisoners than the whole American forces engaged. The annals of modern warfare scarcely show a parallel to the achievements of our troops in Mexico. N. Y. Evc. Post,

> Banks in Mississippi.-Among the local questions decided by the late election in Mississippi, was one in regard to a pro-

"Is Jonathan Dumpey here?" asked a raw country fellow, bolting into a city printing office.

"I don't know any such a man!" replied

"You don't know him!" exclaimed the country chap: "why he courted my sister!"

IFA Card.—In answer to numerous inquiries, the undersigned takes this method of saying to his friends, generally, that he intends to continue his connection with the Female Academy, during the ensuing year. He begs leave to state, however, that, at the present low rates of tuition, a more regular attendance of pupils is necessary, to afford the Teacher a reasonable compensation for his labors. Boarding, at ordinary rates, can be had in desirable places. D. McNEILL TURNER. 40

IFA Card .- I will continue to practice in the Court of Law for Abbeville, and will regularly attend its sessions. I refer my friends to Messrs. Cochran & Nosle at Abbeville C. H.

Charleston, Nov 3 JOHN CUNNINGHAM.

IT Notice.-The Trustees of Willington Congregation, would give notice that application will be made to the Legislature of this State, at its next sitting, for a charter to incorporate Willington L. COVIN,
Member of the B. of Trustees. Church.

Sept 21, 1847. 30

Notice is hereby given that an applica-tion will be made to the Legislature, at its next session, for a charter for a Rail Road from Aiken through Edgefield District, by or near Edgefield C. H., through Abbeville District and Pendleton District to Andersonville, at the junction of the Seneca and Tugaloo Rivers. [sept 1

Extract from the New York Express. It is seldom that we step out of our way to notice, either for praise or censure, the various advertised specifies of the day; and could we believe in the truth of all the certificates which are published in favor of some of them, there would be no call for our praise certainly. But from a personal knowledge of their virtue, we are willing to record our unsolicited testimony in favor of Dr. Hull's Worm Lozenges: they being in our opinion an in-fellible remody for that bane of childhood—worms. Safe in their operation, easily administered, and what to us is a great recommendation in a medicine for children, they are not nauseating, but actually pleasant to the taste. We have used them in a number of cases in our family, and in each and every case with complete success; and we take pleasure in recommending them to our patrons and friends, not only as a cure for worms, but as a thorough and easily administered cathartic or purgative medicine, where such is needed, or where worms are suspected.

The above medicine is for sale at the Drug Store and at the Post Office. [Nov 37
